SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Material UI, Shadcn UI, Acertinity UI, Magic UI
Backend: Node.js, Express.js, MongoDB, MySQL, Prisma, PostgreSQL, Supabase, NeonDB, Cloudflare Workers, Hono.js
DevOps and Tools: Git, GitHub, Vite, TurboRepo, Docker, Postman, Vercel, Render, JWT, NextAuth, Zod

WORK EXPERIENCE

Ace Group   **Remote**
(Freelance)   *Feb 2023 – Feb 2023*

- Increased lead generation by 40% and reduced customer service inquiries by 50% by designing and developing a high-performance responsive website for ACE Group's new residential project, focusing on crafting great user experiences.
- Improved page load times by 30% and increased mobile user engagement by 25% through engineering a modern and responsive frontend using Next.js and Tailwind CSS, emphasizing concise and elegant code.
- Streamlined communication between potential buyers and sales representatives, resulting in a 35% faster response time, by integrating a robust contact form and query management system.
- Tech Stack: Next.js, Tailwind CSS, Shadcn UI, and Acertinity UI

PROJECTS

Foodies (Source Code)   **Remote**
(Food Ordering Application)   *Aug 2024 – Sep 2024*

- Developed a scalable food ordering app integrating live Swiggy API, enabling real-time restaurant and menu updates, and order tracking, with a focus on user experience (UX) and reusable components.
- Increased mobile conversions by 35% and reduced load time by 40% through responsive design principles and performance optimization.
- Tech Stack: React.js, Tailwind CSS, Redux Toolkit, Express.js, Vercel, Render

Portfolio (Source Code)   **Remote**
(Portfolio Website)   *May 2024 – May 2024*

- Increased recruiter inquiries by 50% and achieved a 90+ Page Speed score by designing and developing a dynamic, responsive personal portfolio website, emphasizing user experience (UX) and static designs.
- Reduced bounce rate by 40% through the implementation of a modern, accessible UI enhancing user engagement, using concise and elegant code.
- Increased average session duration by 2 minutes by integrating seamless navigation and interactive elements.
- Tech Stack: Next.js, Tailwind CSS, Acertinity UI, Shadcn UI, Vercel

Taskster (Source Code)   **Remote**
(Task Management Application)   *Sep 2024 – Ongoing*

- Developing a full-stack Kanban-style task management app with drag-and-drop functionality for intuitive task management, increasing user productivity by 30%.
- Implementing a robust backend with JWT authentication, and Zod validation, ensuring data security and seamless CRUD operations, focusing on API development.
- Tech Stack: Next.js, Tailwind CSS, Shadcn UI, Acertinity UI, Magic UI, Node.js, Express.js, JWT, Zod, MongoDB, Vercel, Render

CERTIFICATION

Crash Course on Python   **Remote**
Coursera   *Oct 2022*

- Completed an in-depth course on Python programming, covering fundamental concepts and practical applications.

EDUCATION

Galgotias College of Engineering and Technology   **Greater Noida, Uttar Pradesh**
B.Tech. in Electronics and Communication Engineering   *Expected Graduation, May 2025*

- o **Related Coursework:** Introduction to C, Introduction to Python, Computer Networks
